DENTAL STAFF: Our diverse staff of pediatric and general dentists, along with a variety of dental specialists (orthodontists, oral surgeon, dental anesthesiologist), dental hygienists, dental assistants, and administrative and support staff speak more than 10 languages.

DENTAL EDUCATION: In partnership with Lutheran Medical (Brooklyn, NY), St. Joseph Health Services of RI provides advanced training for dentists who are accepted into the following dental residency programs:

- Advanced Education in Pediatric Dentistry: A 24-month training program that prepares dentists to become pediatric dental specialists. Annually, eight pediatric dental residents provide services to children at St. Joseph facilities.
- Advanced Education in General Dentistry: A 12-month training program for dentists seeking to gain experience in large practice settings and in working with general dentists, dental specialists, dental hygienists, dental assistants and/or medical professionals. Currently, two dental residents are available to provide dental care to adults.

For information on dental services or to make an appointment, please call the St. Joseph dental clinic of your choice at the number above. For information on dental education, please email Maureen Ross, Education Coordinator at mross@CharterCARE.org.
